Summer Research Experience for Undergraduates in Environmental Microbiology

- Ten week summer research experience
- Potential projects include:
  - Adaptation of *Pseudomonas* to Soils
  - Biology of *Shigella flexneri*
  - Characterization of Polar Microorganisms
  - Magnetotaxis of Bacteria
  - Microbial Ecology of Aquatic Ecosystems
  - Mutagenesis in Nutrient Limiting Conditions
  - Nutrient Cycling
  - Sporulation of *Bacillus anthracis*

- $4000 stipend plus campus housing
- Round trip airfare
- Applications due March 7, 2008
- Apply online at sols.unlv.edu/reu_main.html
