PRomoting Industry engagement and Mentorship in Engineering (PRIME)
Undergraduate Internship and Career Coaching for UCSB Students

As PRIME participants, science, engineering, and math undergraduates at UCSB get training in key professional skills and gain access to networks of professionals in the STEM field.

The cornerstone of PRIME is a 2-unit course offered in the Fall, and developed with input from industry. The program also includes a number of events throughout the Winter and Spring quarters, such as Dinner with Industry, Career Seminars, and Site Visits.

Successful PRIME applicants commit to enrolling in the class, and will be invited to join PRIME networking events.

Course, Fall 2016 (mandatory)
- TMP 191IN “Workplace & Internship Skills”
- Day/Time: Thursdays, 5-6:30pm
- Instructor: Prof. Brad Paden

Networking Events (optional)
- Dinner with industry, career seminars, and more.

Eligibility
- Full-time UCSB student with soph./junior/senior academic standing.
- U.S. Citizen or Permanent Resident.
- Minimum 3.0 GPA
- Majoring in science, engineering or math

Application Deadline: May 9, 2016
