Interested in field research?

Like learning about the natural world?

California Ecology & Conservation
NRS BIOL/ENVS 188
could be for you!

Visit UC Natural Reserves for seven weeks to learn field techniques, statistics, scientific writing, and oral presentation skills while conducting independent research projects.

INFO SESSION
Thursday, Jan. 19, 2017
4-5pm
MSRB Auditorium

Course alumni will be on hand to share their experiences and explain how you can make this course a highlight of your undergraduate career.
