Looking for research experience?

Undergraduate Research Funding is available!

APPLICATION DEADLINE: APRIL 14, 2017

The Gene and Susan Lucas Undergraduate Research Fund helps first-generation college students get hands-on research experience with UCSB Faculty. The Gene and Susan Lucas Undergraduate Research Fund was established to support research projects of undergraduate, first-generation college students at UC Santa Barbara in the fields of science, technology, engineering, and mathematics (STEM).

The fund provides up to $1,000 toward onsite work experience in a laboratory, research required materials, travel, conference, or field work.

Application and instructions available on the SA Academics Initiatives website: academics.sa.ucsb.edu
